Spooky make-up effects charater workshop for Fan Nexus

KC Mussman has been teaching Special Makeup Effects from Hawaii to Pennsylvania all the way to the Middle East. KC Loves teaching the art of transformation and has worked with all ages and levels and loves to share the wealth of knowledge to students proffessional and newcoers alike.

In this workshop we will be creating a spooky range of characters using a foam latex prosthetic, KC will teach you how to design a look and get creative utilizing your prosthetic in a variety of different ways.

Workshop will cover prosthetic application, blending edges, painting the appliance realisticly and adding finishing touches and details.

Preperation for workshop:

What to bring:

We will have a selection of tools availiable for you to work with but we request all atendees to bring some paint brushes/makeup brushes to use.

We encourage attendees to bring wardrobe items if they have a specific character in mind, Items that come in handy: tattered raags, distressed clothing, zombie rags, spooky garbs, cloaks and lengths of fabric. This comes in handy if you want to take photos or walk around as a character during the convention.

All makeups will be self applied, but its ok to bring a friend to model.
